- French (Bilingual Proficiency)

WORK HISTORY

Data Science Intern
ESO Venture Fund, L.P. | Jan 2021 - Mar 2022

- Designed, developed, and implemented tools and data models in Python and VBA to interpret data about executive and corporate personnel transitions by constantly training the models to better identify opportunities, resulting in a 70% increase in deal execution speed, hence making the company stand out as the only company in its market to be able to execute deals within 24 hours.

EDUCATIONAL BACKGROUND
